

## **Information Systems Frontiers (Indexed in INSPEC)**

<http://www.som.buffalo.edu/isinterface/ISFrontiers/>

**Vol. 4, No. 4 (2002) and Vol. 5, No.2 (2003) Issues**

**Theme: Advances in Software Engineering: Theory and Practice**

**Guest Editors: Michael Bauer, *University of Western Ontario*, Gene Hoffnagle, *IBM*, Howard Johnson, *NRC*, Gabriel Silberman, *IBM***

M. Chechik, W.Ding *University of Toronto* **"Lightweight Reasoning About Program Correctness"**

A. H. Eden, *Center for Inquiry, NY* **"Principles in Formal Specification of Object Oriented Architectures"**

D. Hou, J. Hoover, *University of Alberta* **"Towards Specifying Constraints for Object-Oriented Frameworks"**

H. Liu, T. C. Lethbridge, *SITE, University of Ottawa* **"Intelligent Search Methods for Software Maintenance"**

T. C. Lau, *IBM Canada*, J. Lu, J. Mylopoulos, *University of Toronto*, K. Kontogiannis, *University of Waterloo*, **"The Migration of Multi-tier E-Commerce Applications to an Enterprise Java Environment"**

D. Rayside, M. Litoiu, *IBM*, M. Storey, C. Best, *University of Victoria* **"Visualizing Flow Diagrams in WebSphere Studio Using SHrIMP Views"**

T. P. Nadeau, Toby J. Teorey, *University of Michigan* **"A Pareto Model for OLAP View Size Estimation"**

J. W. Wong, D. Evans, Michael Kwok, *University of Waterloo* **"On Staleness and the Delivery of Web Pages"**
